

April 30, 2020

Hello to our amazing patients,

We hope that everyone has stayed safe during the last few months and that you and your loved ones are staying healthy.

I am happy to say that we cautiously returning to routine care starting May 1, 2020.

Our office has implemented some necessary steps to keep us all virus free. Before your appointment, you will be contacted by our office and asked a few questions related to your health. You may also have to complete some paperwork to ensure that your visit goes smoothly. If you feel at all unwell or if you have been in contact with someone with COVID-19, we will kindly postpone your appointment. We have always loved seeing patients and their families during visits; however, we kindly ask that you come to your visit alone.

When you arrive at the office, your temperature will be taken and then you will be taken to one the exam room immediately after checking in. If you have a temperature above 100.0 we will ask that you reschedule your appointment and we will direct you to testing. We ask that you wear a face covering when in the office and we will wear one as well.

We will also be taking extra time between every appointment to thoroughly disinfect all surfaces.

We look forward to seeing you soon.

To make an appointment please call the office at 713-465-5966. If you prefer to continue using a televisit, we would be happy schedule that as well.
